AUGUST 25TH, 2020

COVID-19 WEEKLY CASE REPORT

Nine (9) New Cases of COVID-19 in Goshen County **between August 18th - August 25h**

Goshen County Public Health Officials were notified of nine (9) new Laboratory Confirmed cases of COVID-19 since August 18th, 2020.

This currently brings Goshen County to forty-three (43) cases.

The cases reported: Five (5) males, one in his teens, 30's, 40's, and 50's. Four (4) females in their 30's, 50's, and 60's. Two (2) cases are currently hospitalized, they are a male and a female both in their 50's.

The Wyoming Department of Health is actively responding and investigating these cases and high-risk contacts will be notified.

*Public Health is continuing to promote the importance of social distancing, the use of face masks and frequent hand washing along with the use of hand sanitizer and all universal precautions to assist in the prevention of community spread. **IF** you have signs/symptoms stay home and call your local health provider.*
